## CLAIM AMENDMENTS

Please amend the claims as described below. In accordance with 37 CFR §1.121, a complete listing of all claims in the application is provided below. The status of each claim is indicated in the parenthetical expression adjacent to the claim number.

## Claims 1-9 (Canceled).

- 1           10. (Previously Presented) A wind power installation comprising:  
2           a foundation;  
3           a pylon based on the foundation and having a diameter in a foundation region;  
4           a generator;  
5           a power module having a plurality of electrical devices and a support, the plurality of  
6           electrical devices including at least one transformer to transform electrical energy provided  
7           by the generator to a medium voltage and/or a high voltage, the plurality of electrical  
8           devices further including electrical devices by means of which electrical energy produced  
9           by the generator is controlled and/or supplied and/or converted, the support being placed  
10          on the foundation and accommodating the plurality of electrical devices, the power module  
11          further having a width and/or length less than the diameter of the pylon in the foundation  
12          region; and  
13          a container that accommodates the power module, the container having a wall  
14          disposed between the power module and a wall of the pylon.

- 1           11. (Previously Presented) The wind power installation of claim 10 wherein the  
2           container comprises a tube having a substantially cylindrical cross-section.

1           12. **(Currently Amended)** The wind power installation of claim 10 wherein a  
2   separate space is provided in the container and available as a changing room and/or a  
3   rest room for one or more service engineers of the wind power installation.

1           13. **(Previously Presented)** The wind power installation of claim 10 wherein the  
2   container comprises a water-tight container.

1           14. **(Previously Presented)** The wind power installation of claim 10 wherein the  
2   container includes means for water-tight closure of the container.

1           15. **(Previously Presented)** The wind power installation of claim 10 wherein the  
2   container includes a water-tight door.

1           16. **(Currently Amended)** The wind power installation of claim 10 wherein a space  
2   within the container is equipped to allow a prolonged stay by ~~a number of~~ one or more  
3   people.

1           17. **(Previously Presented)** An offshore wind power installation comprising a wind  
2   power installation according to claim 10.

Claims 18-29 **(Canceled)**.
